

WASHINGTON, SUNDAY, APRIL 3, 1904.

While wishing all our friends today "A MOST JOYOUS EASTER," we thank them one and all for their liberal patronage during the week before Easter. Last week we were simply overwhelmed with business. The largest force of efficient Salespeople ever employed by us could hardly serve all of you properly—and we trust that you'll pardon any apparent inattention during that time—we simply did the best we possibly could.

This great Selling proves that our qualities are right—and that our styles have taken remarkable forward strides this season. However, we shall have to continue these busy days—to keep the big factories, we're interested in, employed. Only by selling enormous quantities can we afford to sell such high grade shoes as ours at our famous low prices.

Tomorrow we shall start out with a

Great Sale of \$3.50 Grade-Shoes at \$2.50

A wonderful variety of the snappiest new Men's and Women's Spring Shoes and Oxfords—that you cannot duplicate anywhere in Washington under \$3.50 a pair—will be sold at \$2.50. This sale is a sort of sample of the great values prevailing here in all our different shoe grades.

Rolling Fork Malt Whisky,

that during seven years' keeping has developed that MEDICINAL FACTOR, ITS FRAGRANT ETHERS to a degree seldom found, is one of the standards in the stock of

Chris. Xander's Quality House,

And is sold at \$3 a gallon; 75c full quart.

To acquire the medicinal virtue the physician prescribing a Malt Whisky expects to act, only such is fit for developing through years, that when stored was absolutely devoid of impurities. This requirement is par excellence met by Chris. Xander's Old Rolling Fork Malt. Compared with this how poor a show has, for instance, a certain Malt Whisky, neutral and little developed, that is rendered popular through most extravagant advertisements, invariably met in every daily paper and worded in terms rather unscrupulous, asserting things that seem more than ludicrous to the connoisseur, but that fetch the unaware ones.

909 Seventh St. - - - 'Phone E. 865.

SAVE THE CHILDREN.

Scarlet fever is unknown in countries where cow's milk is not used as food, hence milk from unsanitary stables may contain the poison producing it.

Milk is also known to have caused epidemics of DIPHTHERIA, TYPHOID, and other ENTERIC DISEASES.

A proper and simple precaution consists in

SCALDING MILK

(Don't boil it)
for children and invalids—and scalding will not affect its digestibility. After scalding, keep cool and covered.

A regular diet for children on condensed milk is inadvisable.

SOCIETY FOR PREVENTION OF SICKNESS.

We favor a stringent law prohibiting the sale, or use in ice cream, of any CREAM not Pasteurized.
